

TridentCare, a One-Stop Clinical Solution, provides Bedside Imaging, and Vascular Services, to tens of thousands of patients daily, wherever they are, nationwide.

Tools and Resources to provide a positive experience for your patients:

Services	Benefits
Digital X-Ray Services 365/24/7**	X-ray services are performed with direct/digital radiographic (DR)-technology which allows immediate viewing of images for ordering physicians and non-physician practitioners.
Digital Ultrasound Services**	Ultrasound services are performed with digital sonographic equipment, which provides color flow, continuous flow Doppler, and 2D with M-Mode imaging for cardiographic studies.
Electrocardiogram (EKG) and EKG Patch Solution*	Standard 12-lead electrocardiograms are performed, and a tracing is provided for review for your in-house physicians and non-physician practitioners. The EKG Patch Solution provides healthcare professionals with a quicker, easier, and more reliable method for administering EKGs to patients during cardiac events.
Vascular Access PICC & Mid Lines IV Education	Ultrasound – guided Peripherally Inserted Central Catheter (PICC) insertions , which use ECG Technology to expedite confirmation of tip placement. We deliver Quality and Comfort for the patients using Bard Catheters. Nurse Education for competencies in peripheral intravenous insertion, central line dressing and more available.
Follow-Up At-Home Discharge Plan	TridentCare At Home offers a safe solution to patients as they plan for the next phase of their medical journey. We can help your discharged patients avoid an unplanned ER visit with scheduled at home exams.
Our JCAHO Accredited radiologists available 365/24/7	Radiography reads are available 24/7 allowing for uninterrupted patient care, convenience, and lower costs. Radiologists are available to confer on exams and Rely Radiology Support Desk is available 24/7. (Support Desk 1-972-468-3590)
Quality Assurance and Performance Improvement Initiatives	Rely Radiology utilizes the American College of Radiology (ACR) <i>RadPeer</i> , Peer Review program as part of our overall quality program. Quarterly review and assessment of technologists imaging is also performed and documented for reliability and continuous QA measures.
Trident Connect Online (TCO)	Online ordering 24/7 reduces time on telephone placing orders and time spent on required paperwork. Immediate image and report review are available online from any PC or mobile device, once case is resulted by a Radiologist.
EMR Integrations	We work with multiple electronic medical record platforms and currently have over 1,000 live interfaces across the country.
